

Heatmap showing the enrichment of amino acids at different peptide positions. The y-axis lists amino acids (A, R, N, D, V, Q, E, G, H, I, L, K, M, F, P, S, T, W, Y) and the x-axis shows peptide positions (1-15). A color scale on the right indicates enrichment levels from 0.0 (light pink) to 1.2 (dark blue).

## Amino acid
